 - Q: Senior pictures - Parents felt not enough information was provided. A confirmation notice is not prominent when submitting your picture changes. Kittle will follow up. You will need a picture to be included in the composite.
 - Q: Homecoming follow-up - Parents felt that there should be more information in regards to balloons at future events, and wondered if metal detectors have been considered. Kittle mentioned that balloons are no longer permitted as part of any event decorations, and were enforced at other high schools already. Central office would need to make any determination of metal detection devices.
